

# Cycling with Junior To Amsterdam

306MIL  
(492KM)

## OUR ADVENTURE

Hi, my name is Iwona Beloposky and on the 26th of May 2017 together with my son Junior we begin our biggest adventure ever.

We are cycling 305 miles (494 km) from Biggin Hill in Kent to Amsterdam in Netherlands.

Junior is an 8 year old boy and at the age of two he was diagnosed with a genetic disorder Tetrasomy q15, Autism, Global Developmental Delay, Severe Learning Difficulties and ADHD.

Junior is a very happy, nonverbal boy who requires support in every aspect of his life. He is an active child so we hope he will love his new quest and will prove that there is no stopping him living life to the full, so watch out Amsterdam here we come!!!

## FOR THE MAYPOLE PROJECT

We are fundraising for The Maypole Project who over the years became integral part of our family, who celebrates our successes and supports us when the going gets tough.

The Maypole project are a children's charity based in the South East of London who provide a lifeline of support for children with complex medical needs and their families

You can help us support this amazing Children's charity by donating at
