

17th March 2026

Dear Families,

Over the past few months, we have been working closely with the professionals at **SeeAbility**, who are currently providing **FREE eye care** services for Riverside pupils.

These services include **vision screenings, eye tests, and the dispensing of glasses** for pupils of all ages, across all pathways, and all sites. All appointments take place on the school site your child attends and are completely **FREE OF CHARGE**. There is also no charge for any glasses provided.

Families are very welcome to attend the appointment if they wish. However, this is not compulsory, as a member of your child's class team will always attend with them.

All clinicians involved have specialist training and tailor the appointments to meet each pupil's individual needs. This may include several shorter appointments over a few weeks to help build trust and ensure a full and comfortable eye and vision assessment can be completed.

Please see the link below to sign your child up for this service, or scan the **QR code attached**.

Please note that only pupils who are signed up will be able to access these clinics.

If you have any questions or queries about the services available, please do contact sophie.merrill@riverside.bromley.sch.uk.
