

17th January 2024

Dear Families,

Further to our communication in the Autumn Term, we are pleased to let you know that we will be hosting a vaccination clinic in school at our St Paul's Cray site.

Unfortunately, although we did request the service to be at all 4 locations for convenience, the team can only attend one location on this occasion. If your child attends Beckenham, West Wickham or Phoenix site, you would need to make arrangements to bring them to St Paul's Cray for the vaccination.

The attached letter and leaflet provides further information on the NHS recommendation for "a booster dose of the Pfizer-Corminaty Omicron XBB 1.5 - COVID-19 vaccine is recommended for children over 12 and young people under the age of 18 with severe or profound and multiple learning disabilities (PMLD)".

Please note that vaccination is being offered to pupils aged 5 years and over.

If you would like your child to be vaccinated, please click the link below to confirm your details and your consent for your information to be shared with the NHS team.

<https://www.riversideschool.org.uk/form/?pid=5&form=214>

Please respond by Noon on Monday, 22nd January.

If you have any questions, you can contact the vaccination team at Covid19schools Vaccination programme@gstt.nhs.uk

Yours sincerely,

Riverside School Office.
