

Operation Encompass

Riverside School is part of the ever-growing network of education facilities which participate in Operation Encompass, a national initiative that helps to support pupils and their families who may have been exposed to domestic abuse.

If a pupil has been present when a domestic abuse incident has occurred and the police have been called then the Police will notify the designated person in the school that an incident has occurred.

This will be completed as early as possible, within 24 hours, and allow the school to support the pupil and their family. The information will remain confidential and only those who need to know will be given the information that a domestically violent or abusive incident has occurred.

At Riverside School the Designated Safeguarding Lead is Helen Bushell Movahedi, but Safeguarding Leads are present at all sites. If you have any questions about Operation Encompass or any other areas of safeguarding, please contact the school to speak to the team.
