

15th January 2017

Dear Dylan, Angel, Lucas, Jake, Izaak and Benny,

Thank you very much for looking at the lunch hall and for sharing your ideas with me. I think you have made some excellent points and I have discussed these with Sue Crane.

Your first point is about the hall being very noisy and you suggest using plastic knives and forks because they are much quieter than the metal ones. This is a great idea and we will order some new plastic cutlery to replace the metal cutlery.

Your second point is to play relaxing music as you say that the noise isn't very nice. I think this will really help and we have an excellent sound system in the hall. Please can you come up with a plan about who chooses the music and then I will leave it up to you to put it into action.

Your third point is about having a choice of drinks, such as milk or juice. We have looked into this but I am afraid it works out too expensive and I also think there could be a lot of wastage if we use cartons. Water is the most healthy and hydrating drink so can we please stick with this. If there are some children who want to bring their own drinks in from home, I am happy with this.

Your fourth point is about putting a movie on the whiteboard during lunchtimes. I would rather we put music on, rather than a movie, as I think this would be more sociable and would still allow people to chat together or be together. I think that a movie could distract from this. I am very happy for a Movie Club to happen at lunchtimes, just not during eating times!

I also wanted to let you know that we have been looking at the seating and flooring to make lunchtimes more comfortable and quiet and we have also been looking at other ways to make the hall look more attractive, such as big posters.

I will let you know how we get on and if you have any further ideas about how to make lunchtimes even better, please let me know.

Thank you very much.

Steve
