

Dear David,

Thank you for your letter about getting a penguin in school. I have looked on the internet and I am afraid that they are very expensive (about £1000). Also, they need fresh water and our pool has lots of chemicals in it which could harm them. I know how much you like penguins so we would not want to harm them. Also, penguins live together and do not survive on their own, so one penguin on its own would be very lonely.

Thank you for asking.

Best wishes,

Steve
